St. Johns, Thursday, January 22

Don Tomas Perez is still far from well, but is able to be out.

The weather has moderated considerably during the past week.

Henry Smith and David Finch Hutton came down from the Cienega last Monday afternoon.

Mrs. St. George Creaghe, went to Springville last Saturday to spend a week among her many friends.

The funeral of Don Rosalio Colomo was largely attended. Every one going who could get a conveyance.

Don Alejandro Peralta's addition to his residence is nearly completed, and makes quite an imposing edifice.

Walter Darling, an old-time resident of this place, was in Albuquerque a few days since, on a business trip.

We would advise all delinquents to hustle and pay their taxes. One and a half per cent per month is a heavy interest to pay.

That game of draw has been suspended for a few days, to allow some of the participants time to "dig up." As we before stated, one cannot play in a game of that kind without losing a considerable sum of money.

J. B. Patterson, so we are informed, is in Albuquerque, getting estimates on the cost of the piping it will require to bring the water from the McIntosh spring into St. Johns.

There were two or three couples married yesterday in the Roman Catholic Church, in this place, by Father Padilla. The HERALD offers them its congratulations, and wishes them a long life of continued happiness and prosperity.

There was a shooting scrape in Holbrook on last Saturday between Frank Ketcherside on one side and Robert and William Boyle on the other, in which Robert Boyle was killed. We understand ten shots were fired, and were unable to learn whether either one of the other combatants were injured or not.

As we have before stated, there are several couples awaiting the return of Father Padilla to be made as one, and as it is just as essential to a legal marriage that all the requirements of the law shall be complied with, as it is that some authorized person shall perform the ceremony, we call attention to sec. 1, page 78, Session Laws of 1889.

B. Fawcett writes for information of his son Thomas Fawcett, who has been missing since September 24, 1883, at which time he wrote from Georgetown, New Mexico. He sometimes went by the name of Thomas Collier. He is about thirty years of age, tall, with light eyes and light brown hair. Any information will be thankfully received by his father whose address is 1253 George st., Chicago, Illinois.

Bud Jones, of Springville, met with a very serious accident last Monday afternoon. He, Van Reagan and Hank Sharp, were on their way to Gallup with some beef cattle for Reitz and Johnson Bros., and were encamped about six miles east of St. Johns. In running after some of the steers, his horse put a foot in a prairie dog hole, which threw the animal a complete somersault, catching Bud in the fall and injuring his spine quite seriously. Mr. Sharp came into St. Johns for some liniment to rub him with, and Charley Thompson got a buggy and team from ex-Sheriff Creaghe and went out to bring him into town. Charley Thompson returned on Tuesday morning from the scene of the mishap, and informed us that Mr. Jones' injuries were so painful that he could not stand to ride in a buggy, and the boys had to rig a litter for him in the mess wagon to bring him into town. His injuries appear to be in the hips and the small of the back, and we are afraid that it will be some time before he entirely recovers from it.

Rosalio Colomo, deceased, was born in the little village of San Pablo, State of Chihuahua, Mexico, nearly sixty-seven years ago. In his youth he learned the shoemaker's trade, but never followed the business for any length of time. In the year 1854, the deceased left his native country, and located at the little frontier village of Cubero, New Mexico, and shortly thereafter engaged in the mercantile business. In this he continued up to the day of his death, which occurred at his residence in St. Johns on Friday evening at 9 p. m., January 16th, 1891. During the last fourteen years of his life, Don Rosalio resided at St. Johns, Arizona, and in all of his business career, was noted for his honesty and fair dealing with all whom he had business relations. Rosalio Colomo, like all of us, had his faults, and what man or woman ever lived, with two or three exceptions, that was wholly faultless; hence, the one that is blameless, must first bring an accusation. The writer hereof was personally acquainted with the deceased for nearly twenty-three years, and in all that time knew him to be generously hospitable; inasmuch and to such a degree that no one ever went to Rosalio Colomo who was hungry that he did not feed, or naked that he did not clothe; in short, he was charitable to a fault and beyond his means. The above is not fulsome flattery; why should we flatter the unrepenting dead? but is the simple truth in every particular. In politics the deceased was a Republican, and during the late war, served an enlistment in the second regiment of New Mexican volunteers. He leaves a wife and two children to mourn their irreparable loss. Man is but the initial point between two eternities—out of one he comes and in a short time passes into another—and thereafter is lost from amongst mankind. It is not necessary to say "may his ashes rest in peace," for they cannot be disturbed until the opposite ends of the two eternities shall unite forming one complete circle.

We publish for the information of all concerned the following extract from the Session Laws of 1889, Territory of Arizona, page 30.

Section 1. If any person within any settlement, town, village or city, within this Territory, shall carry on or about his person, saddle, or in his saddle-bags, any pistol, dirk, dagger, slung-shot, sword-cane, spear, brass-knives, bowie-knife, or any other knife manufactured or sold for purposes of offense or defense, he shall be punished by a fine of not less than \$25, nor more than \$100, and in addition thereto, shall forfeit to the county in which he is convicted the weapon or weapons so carried.

Sec. 6. Persons traveling may be permitted to carry arms within settlements or towns for one-half hour after arriving in such settlements or towns, and while going out of such town or settlement.

Sec. 7. Makes it the duty of the keeper of each and every hotel, boarding-house and drinking saloon, to keep a notice of the above law posted in a conspicuous place in his place of business, and a failure to do so, after notice from the sheriff, will subject any such person to a fine of \$5.

We're not waiting for the bats and moles but for men and women who have eyes and use them, who have brains and reason! There's a new world for them—suffering and sickly as they are—a new world created from the brain of a skillful physician—a discovery—the "Golden Medical Discovery."

Years ago Dr. Pierce found out that the secret of all scrofula, bronchial, throat and lung trouble lay—in the beginning at least—in impure blood and the weak tone of the system; that the way to cure these effects was to remove the cause, that human nature being the same, the same results might be looked for in nearly all cases. So confident was he that the exceptions were uncommon that he took the risk of giving the medicine to those it didn't benefit for nothing, and the results have proved that he was right.

And "Golden Medical Discovery" is the remedy for the million! The only guaranteed Liver, Blood and Lung remedy. Your money back if it doesn't help you.

If You had a Friend About to visit some section of country where malarial disease, either in the form of chills and fever or bilious remittent was particularly rife, what would be about the best advice you could give him? We will tell you—to carry along, or procure on arriving, that patent medicinal safeguard, Hostetter's Stomach Bitters, known throughout malaria plagued regions, here and in other countries, as the safest means of disarming the miasmatic scourge, and robbing it of its fell destructive influence. Not only does it fortify the system by increasing its stamina, but overcomes irregularity of digestion, the liver and the bowels, and counteracts the unfavorable effects of over-exertion, bodily and mental exposure in rough weather, or occupation too sedentary or laborious, loss of appetite and excessive nervousness. The functions of alimentation, bilious secretion and sleep have in it a most powerful and reliable auxiliary.
